

Heena Tibadiya

Software Engineer

New York, NY • +1 (848) 467-6093 • tibadiyaheena1994@gmail.com • [linkedin.com](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with experience building scalable web applications using Angular, React, Node.js, and Python. Skilled in microservices architecture, secure system design, and delivering high-performance, user-focused solutions. Proven track record of leading teams, driving technical innovation, and delivering impactful solutions on time and at scale.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, Java, HTML5, CSS3

Frameworks & Libraries: Angular, React, Node.js, Express.js, FastAPI, Socket.io, Bootstrap, Material UI, LangChain.js

Architecture: Micro-frontends, Microservices, Web Components, Webpack 5 Module Federation, Offline Web Apps, Responsive Design, OAuth 2.0, RESTful APIs

Databases & Messaging: NoSQL: MongoDB, Couchbase | SQL: PostgreSQL | Elasticsearch, Kafka, IndexedDB, Minio

Cloud & DevOps: Google Cloud Platform (GCP), Amazon Web Services (AWS), Docker, Kubernetes, CI/CD, Spinnaker, Kibana, CDN

Tools: Git, GitHub, Figma, Postman, VS Code, NPM

AI / ML: LLMs, Agentic Workflows, LangChain.js, Llama 3.2

Soft Skills: Engineering Leadership, Mentorship, Agile/Scrum, Cross-functional Collaboration, Problem-solving

EDUCATION

MS in Computer Science

City University of New York (CUNY), New York, NY

May 2026

BSc & MSc in Computer Applications & Information Technology

K S School of Business Management, Gujarat University, Ahmedabad, India

April 2016

PROJECT

Agentic AI Resume Screening & Feedback System — *React.js, Node.js, LangChain.js, Llama 3.2*

Designed and built a full-stack AI web application that evaluates resumes against job descriptions using a three-agent pipeline (Parser → Matching → Feedback). The system generates a transparent match score with actionable improvement suggestions, showcasing applied expertise in LLMs, agentic workflows, and modern full-stack development.

PROFESSIONAL EXPERIENCE

Senior Software Developer | **Inventyv Software Services Pvt. Ltd.**

June 2021 – August 2023

Gujarat, India

- Led and mentored a team of 5+ engineers across the full development lifecycle — from architecture planning through production delivery — ensuring on-time, high-quality releases.
- Designed and implemented scalable frontend architectures and workflows to support evolving product requirements and growing engineering teams.
- Established and enforced coding standards, security protocols, and code review practices, measurably raising quality and reducing defect rates across all projects.
- Evaluated and integrated emerging technologies into project roadmaps, fostering a culture of continuous learning and innovation within the team.
- Partnered with product and design teams to translate complex business requirements into intuitive, polished UI/UX solutions using Figma and modern frontend frameworks.
- Architected and delivered a micro-frontend platform using Webpack 5 Module Federation, reducing inter-team deployment dependencies by ~60% and cutting release cycle time from bi-weekly to on-demand.

Software Developer | **I-Link Infosoft Pvt. Ltd.**

May 2018 – June 2021

Gujarat, India

- Architected and delivered full-stack features across US tax, healthcare, and CRM platforms using Angular, React, Node.js, Python (FastAPI), JavaScript, TypeScript, Bootstrap, Couchbase, PostgreSQL, and GCP.
- Achieved a 40% reduction in initial load times and 35% improvement in rendering speed by implementing AOT Compilation, Cache-First Serving, and lazy loading strategies.
- Decomposed large monolithic frontend applications into micro-frontends using Web Components and Webpack 5 Module Federation, enabling parallel team development and improved maintainability.
- Integrated a Billing Tree payment module into the core platform, enabling reliable end-to-end payment processing for thousands of end users.
- Collaborated with DevOps to deploy and monitor applications on GCP and AWS, leveraging Kibana for real-time observability and proactive issue resolution.

Junior Software Developer | I-Link Infosoft Pvt. Ltd.

May 2016 – May 2018

Gujarat, India

- Developed responsive, accessible, and user-focused web interfaces using modern frontend frameworks within a microservice architecture.
- Led migration of legacy AngularJS applications to the latest Angular with TypeScript, reducing codebase issues by 40% and improving application performance by 30%.
- Built and maintained RESTful APIs using Node.js and Python (FastAPI) in collaboration with cross-functional backend teams, ensuring seamless integration between frontend and microservices.
- Participated across the full SDLC — requirements gathering, UI design, development, QA, and deployment — contributing to multiple successful product launches.
